1. Study Milestones & Timeline

- **IRB approval was obtained ~ 10/21/25**
Study information can now be shared with patients.
- **Virtual Investigator Meeting was completed ~ 10/23-25/25**
A recording is available for investigators.
- **Scientific meeting in Austin, Texas ~ 11/11-12/25**
GHI team will meet with Pfizer study team to learn up-to-date information about the study & vaccine.
- **Site Initiation at GHI Campuswood clinic ~ 12/4/25**
Pfizer will confirm we are fully trained, and supplies have been received. They will give us the OK to begin study visits.
- **First Patient Enrolled ~ 12/12/25**
- **Goal = 500 Patients Enrolled ~ 7/1/26**
- **Goal = 1,000 Patients Enrolled ~ 2/1/27**
- **Anticipated Last study visits in 2030**

2. Next Steps

Begin chart reviews – Real time chart reviews or retrospective for the past year.

Talk to your patients – Provide printed or electronic study info. Get OK for GHI to contact.

Send patient info to GHI - Complete RedCap data forms or send via EPIC in-basket message.

3. Study Criteria

Does your patient meet any of one of these criteria

- 65 years of age or older
- Received antibiotics in the past 3 months
- Hospitalized once in the past year
- Visited the ER twice in the past year
- 10 or more healthcare visits in the past year
- Scheduled for elective surgery or hospitalization

STUDY TEAM CONTACTS

Principal Investigator:

Stephen Thomas, MD
thomstep@upstate.edu

Clinical Operations Lead:

Michelle Klick
klickm@upstate.edu

Business Operations Lead:

Danielle Doll
